Part two: A) Read the following passage then choose the best answer to the questions below: (2) points each							
Tigers are wild and strong animals that hunt in forests and jungles. They are the biggest cats in the world that are striped all over and have got long tails. They can live in cold mountains and hot jungles. Tigers usually hunt at night. They spend a lot of time searching for food. A tiger can't run as fast as some of other animals so it has to get quiet close to (them). Tigers are in danger because for many years they have been hunted for their fur. We have to protect them and to increase their numbers we should make sure they don't die out.							
Where do tigers hunt? In forests and ...							21
