The opposite of near is next to.			20
Part two: A) Read the following passage then choose the best answer to the questions below: (2) points each.2			
<p>The word " calligraphy " comes from Greek. It means beautiful writing. It is the art of fine handwriting and has been practiced in many countries for centuries. In the Far East, a pointed brush is used. In western and Islamic cultures, a pen is the calligrapher's tool. There was a strong connection between painting and calligraphy in China, because they used similar methods and material. However calligraphers were seen as scholars, while painters were seen as ordinary workers. It was not until the 5th century (that) they were treated as equals. Calligraphy among the followers of Islam was seen as the greatest of the arts, because of the importance of the writing of the Holy Koran.</p>
