Part two: A) Read the following passage then choose the best answer to the questions below: (2) points each

Tigers are endangered creatures. For many years (they 3) have been hunted for their beautiful fur. A tiger is a fierce, strong cat that hunts in the forests and jungles. A male tiger maybe longer than a car and weighs more than two adult men. Female tigers are smaller than the males. A female tiger is called a tigress. Apart from their size, male and female tigers look the same. A tiger lives in its own special area, this is called territory and it has to be large enough to give the tiger food, water, and shelter. They usually hunt at night. It has long, pointed front teeth, sharp, (curved 2) claws and powerful shoulders. It has to work hard for its (meals 1). It can't run as fast as many of the animals it hunts, so it has to get quite close to them before it pounces.
