20

Part two: A) Read the following passage then choose the best answer to the questions below: (2) points each

Fruits and vegetables are full of important vitamins and minerals that our bodies need to be healthy. Scientific studies have shown that eating a lot of them can prevent some illnesses. Also fruits and vegetables don't contain much fat, and they don't have many calories, so they help us to keep thin. Doctors all agree that fruits and vegetables in general are good for you. People who eat a lot of fruits and vegetables (lose 2) weight more easily. (They 3) help you to have good teeth, clear skin, nice hair, and strong bones. But what about the special powers of some fruits and vegetables like vitamin A in carrots which is necessary for the eyes. In fact, iron is also important for your blood, you can get iron in spinach, meat, eggs and beans. Also keep on eating oranges and other foods with vitamin C, such as lemons, kiwis and tomatoes. Finally, do apples really keep the doctors away? Apples do help to (prevent 1) cancer and heart disease. This is because apples have natural chemicals that protect the body. Therefore, people have to take a balanced diet which is full of fruits and vegetables to be healthy.

The text is mainly talking about

21

fruits and vegetables	4	health and fruits	3	fruits and water	2	meat and vegetables	1
-----------------------	---	-------------------	---	------------------	---	---------------------	---

Vitamins and minerals are important for our

22

animals	4	plants	3	birds	2	bodies	1
---------	---	--------	---	-------	---	--------	---

Fruits and vegetables don't contain
